## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 6-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 6-10 have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are clearly a literal translation and are replete with terms lacking clear antecedent such as "its area", claim 1, "the side frame parts" and "the roof members", claim 2.

The term "turned toward a vertical longitudinal center plane of the vehicle" is not understood.

Responsibility for conforming claims to statute is that of applicant.

### ***Allowable Subject Matter***

4. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

5. The following is a statement of reasons for the indication of allowable subject matter: While the prior art shows, for trunk lids, the movement claimed, in the references to Hasselgruber et al. and Queveau et al. and Weissmueller et al., shows as well as the hatchback structure of claim 1, in the patent to Bez, the prior art of record fails to disclose the application of this type of movement to a motor vehicle hatchback. The definition of a hatchback is a well known term as evidenced by the Wikipedia article.
